

Future Caledon
Check In Workshop

Key Questions

Growth

1. Given that we now have the Provincial/Regional growth numbers to 2051, how do you envision the distribution of growth (residential and employment) between urban and rural lands throughout the Town?
2. What is the appropriate mix of residential versus employment lands for the Town?

Community Character

1. How should the built form look in the urban and rural areas of Caledon — how might it differ between the two?
2. How do we continue to balance growth while maintaining the historical character of villages and hamlets?

Housing

1. What types of housing forms are appropriate for the Town — and should some be given greater emphasis than others in certain areas?
2. Where does affordable housing fit within the Town structure?

Employment

1. Taking a longer-term view, what types of employment are most desirable/appropriate for Caledon looking 30 years out?
2. What types of enhanced or new employment would be most suitable for the rural areas of Town?

Infrastructure – Transportation

1. How should we use the GTA West Corridor infrastructure to the Town's advantage to move people, goods and agricultural products?
2. How do we provide options for public transit?

Finance

1. What types of financial incentives would Council support to encourage development (both residential and employment) in the Town?
2. Should growth “follow the pipes” (i.e. should phasing for growth be based on servicing availability)? Are there other criteria that should be considered?
