Dear Mayor and Council:

As a resident and business owner, I am looking for help in this relentless congestion on our roads. How wonderful would it be to increase our town's access to the downtown core in the way of a train? As a resident who believes it is time to ensure us a sustainable mode of travel that reduces auto emissions, I implore you to support the request for a ministerial zoning order. It is a tool in your toolbox, please use that tool to ensure that we have the lands available for a future GO Station.

*Sincerely
Dr. Ali Miller*

At this week's Planning & Development meeting Staff Report 2020-0312 recommended that the Region of Peel designate the Bolton GO Station lands, along with a site in Mayfield West, as High Priority Major Transit Study Areas (MTSA's).

Let's make this happen. It's our last chance.

Thank you

Kelly

Dear Mayor and Council:

As a past candidate to represent the people of Bolton, I can attest first hand that congestion of our roads, safety of our people and transportation were some of the key issues in the minds of the residents of Bolton. I also come to you as a resident who has had enough of the relentless congestion on our roads, increased commute times and making them unsafe. As a resident, I believe it is time to ensure we have a convenient, yet environmentally sustainable mode of transportation for the Bolton residents and all of Caledon. I implore you to support the request for a ministerial zoning order. It is a tool in your toolbox, please use that tool to ensure that we have the lands available for a future GO Station.

Sincerely,

Angela Panacci

Hello Mayor and Council,

I've recently learned there is an opportunity to support a ministerial zoning order in relation to to a future go station. As a resident who regularly commutes and with young children, I ask that you support this motion not only for my generation, but for future generations. This mode of transportation will be critical to maintain quality of life and support our growing region in a sustainable way.

Thank you.

Dear Mayor and Council:

Our family moved to Bolton in 1982, and bought a house close to the centre of town. What joy it was, at that time, to be able to walk to all the stores, be it for food, banking, restaurants, hardware, churches, clothing, furniture, etc.. The CPR rail tracks and station were up the hill, just minutes away. Surely there would be a passenger service to Toronto downtown before long. That was 38 years ago! And we are still waiting!

As residents who have endured the relentless congestion on our roads for so many years, especially by trucks on all major roads, as residents who believe it is time to ensure for us and generations to come a sustainable mode of travel that reduces emissions and is safe, we strongly appeal to you to support the request for a ministerial zoning order. We understand it is a tool in your toolbox, please use that tool to ensure that we have the lands available for a future GO Station.

Respectfully,
Horst and Susan Koschmider

Good afternoon all:

I hope this email finds you all well and safe.

I have had a chance now to read the "notice of motion" that Councillor Innis brought forth relating to a Minister Zoning Order for securing the lands for Bolton Go Train, along with listening to the conversation and doing some factual research and gaining full factual information to either support or not support.

I would like to draw your attention to a few things before considering your decision please.

- 1. Before anyone goes to this extreme to use this extreme planning tool, one needs to ask some serious questions to themselves and staff.*
- Where is the site? Maybe a picture of the site with boundaries of how big so all may ask below questions to see if this will actually work?*
- Where is the analysis & fiscal impact study to support this site?*
- Is the lands large enough for a possible expansion? Say parking, load passenger platform? Etc.*
- Is there any environmental challenges?*
- Is there an area that a possible train may be on a 3rd track to do a maintenance or fix to the train?*
- Has there been any public input relating to this possible site?*
- Is there alternative sites that may be used in case this particular site is not feasible, and again (analysis, fiscal impact, public input)???*

- *Has there been any discussions or a possible promissory note given to Metrolinx from CP rail to use CP rail tracks?*

After all, this is one of their main lines coming out of the Rutherford yard.

Will CP say no, due to their service being possibly compromised?

Is CP Rail willing to lay new tracks (3rd one for possible repair).

- *Is there any development pressures (already asked at meeting answer was yes) for this site?*

- **NO ANSWER to the question, only we have "development pressures"** Well, what are they - one might ask? OR what does that mean?

-

- *Now this is where it gets not so cool, I remember an application coming forward and seeing the notice from the town, I also remember there was a PIM for this particular application. So I dug back in my notes from 2019 and low and behold I found it...here are some links for all to see to factually solidify my statement.*

-

- **1. TOC - Notice to the public. NOTE: Schedule A (the actual lands) Schedule B,**

- <https://pub-caledon.escribemeetings.com/filestream.ashx?DocumentId=2537>

-

- **2. Agenda for March 19, 2019 (agenda #4.2) Committee meeting**

- <https://pub-caledon.escribemeetings.com/Meeting.aspx?Id=c1f36a62-0337-4201-9e74-04e9b3b8b84a&Agenda=Agenda&lang=English>

-

- **3. The complete link for agenda, minutes and audio for the March 19, 2019 meeting.**

- <https://calendar.caledon.ca/Meetings/Detail/2019-03-19-1900-Committee-of-the-Whole-Planning-and-Development>

-

- **4. Town of Caledon COUNCIL MEETING for March 26, 2020**

- *Here is the link for the council to receive the planning RECOMMENDATIONS from previous meeting.*

- <https://pub-caledon.escribemeetings.com/Meeting.aspx?Id=e668714c-7405-481c-8445-70dd7f8f970a&Agenda=Agenda&lang=English>

-

- **5. Council minutes:**

- [file:///C:/Users/Sherry%20Baby/Downloads/1034_Minutes%20\(2\).pdf](file:///C:/Users/Sherry%20Baby/Downloads/1034_Minutes%20(2).pdf)

You all actually received this application, which by the way was deemed complete by the Town of Caledon. By law 19-65

2. *September 29th, 2020 Council meeting:* <https://pub-caledon.escribemeetings.com/Meeting.aspx?Id=3b2d8d5f-9101-4008-bf5d-0c5bfde1943b&Agenda=Agenda&lang=English>

8.4 – September 22, 2020 planning and development meeting – buried in this meeting report is the letter from Gagnon and Walker **NOT ON THE SEPT. 22, 2020 agenda???**

3. I have read Gagnon Walker letter to town council along with others... This letter actually solidify my email today to you all

Conclusion: We have an application on part of the proposed site for a Go Train Stn., Bolton, a possible MZO on lands that has a application that is deemed “COMPLETE” and already had a Public information meeting.

4. Then, I went into more digging and noticed that this “Current Applications” is **NOT** even on the Town of Caledon’s web site for “Current applications” (o Humber Station Road)

<https://www.caledon.ca/en/town-services/current-applications.aspx>

5. Here is the site that is proposed for the MZO and Bolton Go train.
<file:///C:/Users/Sherry%20Baby/Desktop/Schedule%20A%20Go.pdf>

Note: date of the mapping Sept. 18, 2020, meeting date for notice of motion Sept. 22, 2020. Hum!!

My conclusions of **NONE support** for a planning tool better known as a Minister Zoning Order (MZO) is based on facts, based on ethics and morals of not potentially stealing someone else’s lands, that has gone through the PUBLIC PROCESS for their own application, spent probably millions of dollars getting there, along with to save the Town from being possibly in litigation

I will not even go into past history of why Metrolinx took Bolton off the radar due to lack of population allocation to the Bolton area. But, what I will say is this, learn from history – the sad part right now is:

- We have NO Municipal comprehensive Review from the Region of Peel
- We have had NO public meetings on where population should go (well we have kind of) White belt Vision Exercise that has somehow disappeared) and
- When population allocation comes and make sure there is a lot designated to the Bolton BRES area lands to warrant Metrolinx this massive investment.
- It is a low priority for them (not even on the map) , See below link,

page 158, appendix 3E will solidify my statement.

<http://www.metrolinx.com/en/regionalplanning/rtp/Metrolinx%20-%202041%20Regional%20Transportation%20Plan%20%E2%80%93%20Print.pdf>

6. *I am also in receipt of an email to me from Metrolinx, why Metrolinx did not invest in the Bolton area, (2008 – 10 year plan) and it clearly also says “lack of ridership does not warrant the investment” Simply business all, simply business. Remember what you all went through with the “Go Bus” recently it got taken away, why, lack of ridership...you all had to fight hard to keep something and for that I thank you.*
7. ***My heartfelt suggestion and strong recommendation is to pull that Notice of Motion for a MZO off the table completely,** get to work on the many questions I asked (prob. More) at the beginning of this email and lets work together for long term planning for Caledon as whole and do it together not by draconian planning tools that take the public right out and possibly taking someone else's lands away from them and avoiding a possible litigation.*
8. *My final question to all of you and I would like an answer back please from all of you, if a council did this exact thing to your lands or your families lands how would you all feel and react?*

I would like this part of the council agenda package on Sept. 29th 2020 council meeting please for public record.

Respectfully,

Sherry

Dear Laura,

Please accept this mail in support of Regional Councillor Innis's motion for an MZO to protect the north development lands for our GO station hub.

As a senior in need of reliable public transportation to Toronto, and as a citizen in The Town of Caledon who understands the needs of workers and students to access services to the south, it is critical that these lands be protected for current and projected increasing populations seeking transit options.

Please submit this to Council.

Sincerely,

H. Skid Crease

Subject: Letter of support (staff report 2020-0312 and notice of motion 7.1 - Bolton Go Station)

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the contents to be safe.

Hi,

I am submitting this letter of support which I request to be included and brought to the upcoming Council meeting on September 29th. Sitting on Council from 2010-2018 as an Area Councillor for Bolton, I was deeply aware and involved in a number of local and Regional matters related to growth, planning and infrastructure. I support appropriate growth and good planning looking at the bigger picture with the longer planning horizon. For this reason, I support multi-modal transit infrastructure to meet the needs of today but much more importantly, to ensure we can meet the needs of the community we wish to become.

I write this letter to support staff's recommendation in report 2020-0312 to protect lands to accommodate a future Go Rail station in Bolton. The notice of motion requesting the Province to protect the lands identified for a Go Rail station will make sure this happens.

If forward thinking pro active action is not taken to prepare ahead of time for a great community plan, you take the great risk of settling for a compromised plan – one that tries to make the best of poorer options. We have a great opportunity to lay the foundational groundwork for good community building – It requires action today to protect it for the community we will become.

Respectfully submitted,

Rob Mezzapelli

Dear Mayor and Council:

As a resident who believes it is time to ensure us a sustainable mode of travel that reduces auto emissions, I implore you to support the request for a ministerial zoning order. It is a tool in your toolbox, please use that tool to ensure that we have the lands available for a future GO Station.

Subject: Future G O. Station

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the contents to be safe.

I implore you to support the request for a ministerial zoning order to ensure that we have the lands available for a future G O Station, at the last potential site of King Street and Humber Station Road.
Regards. Jean Mason
