**Subject:** asphalt plant

I am opposed to an asphalt plant coming to our town. We used to be the "greenest town in Ontario". I highly doubt that we would still have this title given all the trucks coming and going and all the traffic problems. etc. I have lived in Bolton for almost 30 years and I do not like the way the town is going. Why can't we do something about the downtown core? Make it like a Kleinburg or a St. Jacobs? Take that block on Mill St and build loft condos?

Anyway, I thought I would voice my opinion for a change.

thanks
