> Good afternoon. Due to internet problems I am unable to follow the links on the town site to submit my opinion on an issue being addressed during today's council meeting. I was advised by a town employee to email you.  
>  
> The issue is the passing of a bylaw that will restrict the parking of recreational (campers/trailers) on personal properties, item 6.2 on the agenda.  
>  
> I oppose this bylaw amendment on the fact that there are several types of residences within the Town of Caledon. To have a "blanket" bylaw of this nature is not reasonable or fair to all residents. Some properties are rural, some are in established subdivisions with large lots and some are in new subdivisions with limited parking.  
>  
> I would like to suggest that rather than put the size of a trailer as the guideline, a leeway of measurements around the trailer would not only accommodate home owners with trailers, but also ensure that there is an appropriate allowance in the event emergency services need to access the residence.  
>  
> I hope that my opinion will be read and considered at today's meeting regarding this bylaw amendment.  
>  
> Thank You,  
> Val Burke  
>  
> Sent from my iPhone, have a fantastic day  
>  
> Be the person your dog thinks you are.... Val
