

My name is Joanna Godino and I live on George Cres. I'm very disappointed to here about the proposed development for the lovely property behind my home. Caledon does not have enough services, enmities or infrastructure to sustain what is already scheduled to be built. Our beautiful Caledon has become a perfect example of an overcrowded and unappreciated town overrun by subdivision mania! Please allow this meeting to be part of the towns public record so we can all stay in the loop. Lastly, I'm quite curious about how certain developers who have donated an enormous amount of funds towards specific political campaigns appear to have special privileges in our lovely town.
