Future Caledon: Workshop Purpose

Provide an update on two studies that will inform the Official Plan review, and collect feedback on proposed directions:

1. **Employment Strategy** will look at trends in employment, commercial and institutional uses and provide policy direction for the Official Plan.
2. **Climate Change Discussion Paper** outlines opportunities to integrate climate change mitigation and adaptation throughout the Official Plan.

Future Caledon: Workshop Process

The Meeting will be moderated by Erin Britnell, Director of Corporate Strategy and Innovation. The role of the moderator will be to:

- Act on behalf of the Chair, to allow for active participation of all Councillors in the discussion;
- Account for the order in which Councillors 'raise their hand' to provide feedback on the question's asked;
- Redirect the discussion if the conversation becomes off topic; and
- Monitor the time to ensure all material can be addressed
