Provincial restrictions prevented the band from gathering to rehearse and perform, resulting in the loss of our main source of revenue. We are excited to physically come together again but are faced with added costs associated with the pandemic such as purchasing sneeze shields, PPE and sanitizing supplies. Therefore we find ourselves in a situation where we need to source and recruit new players for the band.</p> <p>The purpose of funding leads directly to growth and continuing to thrive and entertain in Caledon; attracting new members to the band and appealing to wider audiences. Our biggest NEEDS to accomplish this are:</p> <p>***Investing in new music scores. The average music score costs \$150 [one piece]. A regular concert consists of 7 - 12 pieces. While we have a vast music library of historical and traditional variety; In order to keep up with the times, attract new players and appeal to a wider community audience, it is necessary to invest in new musical scores, selections that are popular, written by living composers and relevant to this era. [We would like to purchase 5 new scores immediately 5x 150 = \$750]</p> <p>**P h d d i t i l l i i t t (\$900) d i</p>

Participants will learn about in-home safety, how to complete in-home daily tasks and have the opportunity for hands-on practice. We also give participants a chance to plan out their daily schedules with places they would like to visit within our community. This allows us to teach community safety and familiarity so that our participants can be active members of the Caledon community. We visit places like the Library, Recreation centres, Grocery Stores, Caledon Trails etc. This also gives us a chance to support local businesses. Grant funding will assist with accommodations for room and board, meals and activities throughout the weekend retreat.

2. Organization's Mandate?

- A) Purpose/Mission: The Peel District School Board's mission statement is, "We inspire success, confidence and hope in each student. We are teaching students to be lifelong learners, but our mission applies to our staff as well. Our staff share a common vision of a school system that is a progressive leader in education."
- B) Goals and Objectives: The Peel District School Board's system goals reflect a commitment to ensuring equitable outcomes and provide equitable access and opportunity for all students and staff to learn, work and develop in a climate that is safe, positive, healthy, accessible, and inclusive.

3. Describe the purpose of the grant funding and/or scope of the project. If *Capital, explain how it will benefit the community.

This request is for support for a newly developed Caledon Public Schools' Vegetable Garden Project. The Humberview SS Family of Schools participating in this project are: Allan Dr. Middle School, Caledon East PS, Ellwood Memorial PS, James Bolton PS, Macville PS and Palgrave PS.

Our idea will have students, school staff, families and community members work together to plant a vegetable garden from seed or seedling in the Spring, 2023. Parents and community volunteers will help to maintain the garden during the 8 week student and staff summer break. When students return in the Fall, 2023 they will work to harvest the vegetables. Some of his food will be donated to The Exchange in Bolton. We have confirmed with the Executive Director of CCS that they will happily accept whatever food donations our schools will offer. Some schools will use what they grow as part of their cooking classes. Any resident who needs fresh vegetables will be welcome to take what they need for themselves, or their family.

None of the schools are equipped with garden utensils. This request is for money for each school to be able to purchase 1 garden rake, 1 short-handled spade shovel and 1 hand trowel. Students and staff will be able to use these to get the garden planted, maintained, and harvested. The community and family volunteers will use them to weed the garden in the 8-week summer break. A Caledon East Farm and Feed operation offered a quote of \$75 for all 3 utensils. In addition, each school needs a rain barrel to ensure access to water to feed each garden. Eco Caledon has quoted \$75/barrel. All of these items will have a useful life of much longer than one year. This request covers 7 schools in need of 2 x \$75, so 7 x \$150 = our request for \$1050.00

4. Please provide a timeline for the project, including proposed start and completion dates.

We are in the process of working with each school to locate the best place on their site to put this 10 x 12-foot garden. For schools that want to start their plants indoors, from seed, they will start in April or May, depending on what they want to grow.

All of the vegetables grown by each school will be harvested by the end of September or mid-October 2023, depending on what is being grown and the weather pattern throughout the growing season.

5. Please provide a list of all other sources of funding that contribute to your project/program.

Right now, we have donations from a local Farm and Feed family operation and a Caledon nursery for all the seeds and seedlings we will need for all 7 of the schools listed for this project.

This project is also the beneficiary of the expertise of Caledon's local outdoor educators. The staff from the PDSB's 2 large and successful Field Centres: Jack Smythe Field Centre and GW Finlayson Field Centre have committed their

time and expertise to help this project in our Caledon Public Schools. In addition, staff at the Albion Hills Community Farm are also helping with their knowledge and expertise to ensure these school vegetable gardens will be successful.

6. Has the organization received any other grants or funding from the Town of Caledon?

This is the only request the Humberview Secondary School Family of schools has made to the Town of Caledon for funds to help with these vegetable gardens. There will be another request, like this one, from the Mayfield Secondary School Family of schools. That request will also be for support for the same gardening items and for 7 schools.

7. List Board of Directors.

8. How will the Town of Caledon / CCCGT grant be recognized (e.g. promotional materials, banners at the event, etc.)

Each school generates a regular newsletter that goes out to all of its parents. The Town's CCCGT grant will be recognized in that publication at least twice. Once before students and staff leave for the Summer, 2023 and once when they return to school in the Fall, 2023. In addition, we will place a sticker on each rain barrel recognizing the Town's CCCGT grant for their contribution.

2. Organization's Mandate?

- A) Purpose/Mission: The Peel District School Board's mission statement is, "We inspire success, confidence and hope in each student. We are teaching students to be lifelong learners, but our mission applies to our staff as well. Our staff share a common vision of a school system that is a progressive leader in education."
- B) Goals and Objectives: The Peel District School Board's system goals reflect a commitment to ensuring equitable outcomes and provide equitable access and opportunity for all students and staff to learn, work and develop in a climate that is safe, positive, healthy, accessible, and inclusive.

3. Describe the purpose of the grant funding and/or scope of the project. If *Capital, explain how it will benefit the community.

***Capital Expenditure** – An appropriation of funds for a capital improvement project or assess. These are non-operating expenditures to acquire assets which will have a useful life greater than one year.

This request is for support for a newly developed Caledon Public Schools' Vegetable Garden Project. The Mayfield SS Family of Schools participating in this project are: Alloo PS, Alton PS, Belfountain PS, Herb Campbell PS, SouthFields Village PS and Tony Pontes PS

Our idea will have students, school staff, families and community members work together to plant a vegetable garden from seed or seedling in the Spring, 2023. Parents and community volunteers will help to maintain the garden during the 8 week student and staff summer break. When students return in the Fall, 2023 they will work to harvest the vegetables. Some of his food will be donated to The Exchange in Bolton. We have confirmed with the Executive Director of CCS that they will happily accept whatever food donations our schools will offer. Some schools will use what they grow as part of their cooking classes. Any resident who needs fresh vegetables will be welcome to take what they need for themselves, or their family.

None of the schools are equipped with garden utensils. This request is for money for each school to be able to purchase 1 garden rake, 1 short-handled spade shovel and 1 hand trowel. Students and staff will be able to use these to get the garden planted, maintained, and harvested. The community and family volunteers will use them to weed the garden in the 8-week summer break. A Caledon East Farm and Feed operation offered a quote of \$75 for all 3 utensils. In addition, each school needs a rain barrel to ensure access to water to feed each garden. Eco Caledon has quoted \$75/barrel. All of these items will have a useful life of much longer than one year. This request covers 7 schools in need of 2 x \$75, so $7 \times \$150 =$ our request for \$1050.00

4. Please provide a timeline for the project, including proposed start and completion dates.

We are in the process of working with each school to locate the best place on their site to put this 10 x 12-foot garden. For schools that want to start their plants indoors, from seed, they will start in April or May, depending on what they want to grow.

All of the vegetables grown by each school will be harvested by the end of September or mid-October 2023, depending on what is being grown and the weather pattern throughout the growing season.

5. Please provide a list of all other sources of funding that contribute to your project/program.

Right now, we have donations from a local Farm and Feed family operation and a Caledon nursery for all the seeds and seedlings we will need for all 7 of the schools listed for this project.

This project is also the beneficiary of the expertise of Caledon's local outdoor educators. The staff from the PDSB's 2 large and successful Field Centres: Jack Smythe Field Centre and GW Finlayson Field Centre have committed their time and expertise to help this project in our Caledon Public Schools. In addition, staff at the Albion Hills Community Farm are also helping with their knowledge and expertise to ensure these school vegetable gardens will be successful.

6. Has the organization received any other grants or funding from the Town of Caledon?

This is the only request the Mayfield Secondary School Family of schools has made to the Town of Caledon for funds to help with these vegetable gardens. There will be another request, like this one, from the Humberview Secondary School Family of schools. That request will also be for support for the same gardening items and for 7 schools.

7. List Board of Directors.

8. How will the Town of Caledon / CCCGET grant be recognized (e.g. promotional materials, banners at the event, etc.)

Each school generates a regular newsletter that goes out to all of its parents. The Town's CCCGT grant will be recognized in that publication at least twice. Once before students and staff leave for the Summer, 2023 and once when they return to school in the Fall, 2023. In addition, we will place a sticker on each rain barrel recognizing the Town's CCCGT grant for their contribution.

Dear Sir or Madam,

Please accept this letter in support of the Caledon Butterflyway Project's application for funding to increase the number and health of pollinators in Caledon by increasing the number of native species plants and gardens.

Caledon Public Library and the members of the Caledon Butterflyway team have been partnering for several years to build and maintain the Butterflyway Garden at the Albion Bolton branch. This partnership shares a similar vision of providing space for native plants that support the health and well-being of pollinators. The Butterflyway Garden has been an integral part of the library's vision to be the heart of our community – building and connecting a thriving, engaged, and informed Caledon. An expansion of the pollinator corridor through community gardens will provide nourishment, habitat and will help support the migration of pollinators across the Caledon community.

The Caledon Butterflyway Project is confident that the expansion of the pollinator corridor will benefit the community by enhancing pollinator habitat and quality of life, engaging community participation and bring awareness of the importance of native plants. Caledon Public Library is pleased to support the Caledon Butterflyway Project in their efforts and we encourage you to look upon this application favourably.

Sincerely,

Colleen Lipp

Purpose/Mission

Youth Activists Inc is a youth social advocacy organization focused on creating social advocacy awareness campaigns and online resources to support them. Our organization has provided valuable resources for increasing social issues such as the devastating impact on youth mental health, as well as other social issues exacerbated by the pandemic, like human trafficking. We will continue to create social awareness campaigns that directly impact youth as it relates to providing community support for them, including support for LGBTQ+ youth who have been severely impacted by the pandemic, through Caledon Pride (a subsidiary organization)

Goals and Objectives

Youth Activists Inc is a social awareness advocacy nonprofit focused on promoting social issue campaigns in the Caledon/Peel Region area. We strive to educate and provide resources to students aged 12-21, and work with various community partners to tackle social issues in our community. Youth Activists Inc. also operates Caledon Pride - Caledon's only LGBTQ+ awareness organization. Caledon Pride hosts pride virtual events, socials, and plays a large role in the Town of Caledon's Pride Month celebrations (although the group is independent from the Town of Caledon.

Grant Application

Describe the purpose of the grant funding and/or scope of the project. If Capital, explain how it will benefit the community.

The funding will go directly towards supporting social awareness advocacy campaigns in Caledon and throughout Peel Region. The funding will support our #IgnoranceIsntBliss environmental advocacy campaign that we are currently developing. The campaign seeks to educate and raise awareness about the misinformation surrounding climate change, and how individuals can make an impact in reducing the impacts of climate change. Through videos, our website, graphics, and organic interactions on social media, we will educate young people on how to combat climate misinformation and how they can make a positive difference in their community. The intended target of the videos is youth aged 14-19. All the funding provided by the Town of Caledon will go directly towards supporting the production of materials/videos/products for this campaign. We've run a previous social advocacy campaign similar in scope at www.thisishumantrafficking.ca and we hope to create a similar campaign.

How will the Town of Caledon / CCCGT grant be recognized (e.g. Promotional materials, banners at the event etc.)

The Town and the grant will be recognized through all promotional materials -- including on the videos, website, graphics, on social media, and through an in-person launch event.
