Subject: ICBL Renewal
Date: Friday, September 15, 2023 4:35:16 PM

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the contents to be safe.

This communication is to request the Town of Caledon Council renew the interim control by-law (ICBL) prior to the existing by-law expiring on October 17, 2023. I want to commend Council for demonstrating best practices and a leading edge approach to addressing aggregate resources in Caledon by implementing the ICBL. The Town should continue to temporarily freeze permitted land use as the review and updating of policies and zoning continues in relation to aggregate developments. I have previously expressed my concerns related to proposed aggregate resources policies during the review of the draft Strategic Plan 2023-2025 in an email sent on June 23, 2023. It is crucial that the appropriate studies based on accurate analysis be completed prior to any decisions regarding aggregate resources.

Many thanks.

Patricia Rosch
