Subject: Bolton truck traffic - please add to this weeks agenda

The situation with all the yards, legal or not, has gotten out of control. I can't use highway 50 anymore as it feels like a death trap. Between all the trucks and cars passing in the middle of the "lane" to pass its a scary drive.

Many years ago the previous mayor talked about coleraine becoming 4 lanes and they wouldn't be allowed past mayfield. This would help, as 90% of locations they go to would be accessible but yet the trucks are still all going up 50 and turning left on parr and streets up to Healy and beyond.

Our community does not feel safe anymore and feels like our leaders don't care. Something needs to be done before another life is lost.

Thank you,

Maria Messere
