**Subject:** Agenda Item 15.2.2 Illegal Trucking

Hello,

I moved to Bolton three years ago, and my first year here was truly wonderful. However, I've recently observed significant changes in our community, particularly concerning the increase in illegal trucking and the establishment of trucking yards. While some of these issues extend into Vaughan as they are on our boarder, I am deeply concerned for the safety of my family, friends, and our community.

I myself and my family have encountered unsafe situations on the road, including near-death incident 4 times with truck drivers who show little regard for traffic laws. The lack of police presence in Bolton is alarming; my family has had close calls on roads like Cold Creek, Kirby, and Highway 50 & King. It's distressing to think it took tragic incidents of death for action to be considered.

With another trucking yard being set up at Albion Vaughan and Davonston, I worried and truly filled with anger about the chaos this WILL bring to our neighborhood. Many residents rely on these roads, and the potential for increased traffic and danger is significant and something bad WILL happen... look thus far!

I believe our community deserves better. We need more police and MTO oversight to ensure our safety. It's crucial that we advocate for a safer environment, as we all have the right to feel secure in our own neighborhood. Thank you for your attention to this urgent matter.
