

**THE CORPORATION OF THE TOWN OF CALEDON
BY-LAW NO. [By-law Number Inserted by Town]**

Being a by-law to amend Comprehensive Zoning By-law 2006-50, as amended,
with respect to implementing the Supplementary Aggregate Policy Study.

WHEREAS Section 34 of the Planning Act, as amended, permits the councils of local municipalities to pass zoning by-laws for prohibiting the use of land or the erecting, locating or using of buildings or structures for or except for such purposes as may be set out in the by-law;

AND WHEREAS the Council of The Corporation of the Town of Caledon considers it desirable to pass a zoning by-law to implement the recommendations of the Supplementary Aggregate Policy Study.

NOW THEREFORE the Council of The Corporation of the Town of Caledon enacts that By-law 2006-50 as amended, being the Comprehensive Zoning By-law for the Town of Caledon, shall be and is hereby amended as follows:

1. The following new definitions are added to Section 3.2:

Asphalt plant means an operation manufacturing asphalt through the mixing of mineral aggregates and oil or recycled asphalt material, but does not include a portable asphalt plant.

Excess soil operation means the importation of fill or excess soil from another site onto a lot, but does not include importation for agricultural uses, land development purposes for lands with an appropriate Planning Act or Niagara Escarpment Planning and Development Act approval, or undertakings with approval under the Town's Site Alteration By-law.

Commercial peat extraction and organic soil extraction means the extraction of peat or other soil organic matter from the ground for commercial or industrial purposes.

Portable concrete batching plant means a temporary facility, to be dismantled at the completion of a construction project, where:

- a) any excavation incidental to the construction of a building or structure for which a building permit has been issued; and
- b) bulk materials uses in the process described in clause a) above are kept.

Soil dehydration services means the processing of liquified soil or other slurry-type earth into separate water and dry soil or earth.

2. The definition of gravel pit in Section 3.2 is deleted and replaced with the following four new definitions:

Pit Class A means land or land under water from which unconsolidated aggregate is being or has been excavated at a rate greater than 20,000 tonnes of aggregate annually, and that has not been rehabilitated, but does not mean land or land under water excavated for a building or structure on the excavation site.

Pit Class B means land or land under water from which unconsolidated aggregate is being or has been excavated at a rate equal to or less than 20,000 tonnes of aggregate annually, and that has not been rehabilitated, but does not mean land or land under water excavated for a building or structure on the excavation site.

Supplementary Aggregate Resource Policy Study
Zoning By-law Amendment

3. The definition of quarry in Section 3.2 is deleted and replaced with the following four new definitions:

Quarry Class A means land or land under water from which consolidated aggregate is being or has been excavated at a rate greater than 20,000 tonnes of aggregate annually, and that has not been rehabilitated, but does not mean land or land under water excavated for a building or structure on the excavation site.

Quarry Class B means land or land under water from which consolidated aggregate is being or has been excavated at a rate equal to or less than 20,000 tonnes of aggregate annually, and that has not been rehabilitated, but does not mean land or land under water excavated for a building or structure on the excavation site.

4. The definition of small scale concrete batching plant in Section 3.2 is deleted and replaced with the following:

Small Scale Concrete Batching Plant means an operation primarily involved with the mixing of mineral aggregates and other ingredients to produce concrete, limited to 40 cubic metres per hour and a maximum batch hopper capacity of 1 cubic metre.

5. The first bullet in Section 4.29.3(a) is deleted and replaced with, “pit, quarry, wayside pit or quarry, portable asphalt plant, portably concrete batching plant, or expansions thereof”
6. The bullet, “an asphalt manufacturing or refining use” in Section is deleted in Section 4.32 is deleted and replaced with a new bullet as follows: “aggregate transfer station, asphalt plant, commercial filling, commercial peat extraction and organic soil extraction, concrete batching plant, small scale concrete batching plant, and soil dehydration services.”
7. The rows, “gravel pit” “and quarry” are deleted in Table 8.1.
8. The MX column in Table 8.1 is deleted and replaced, and new rows are additionally added to Table 8.1 as follows:

| USE | MX |
|-----------------------------|----------|
| Detached dwelling | ✓ (4) |
| Excess soil operation | ✓ (4) |
| Farm | ✓ |
| Forest management | ✓ |
| Livestock facility and shed | ✓ (4) |
| Outdoor storage, accessory | ✓ (4) |
| Pit Class A | ✓ (4)(5) |
| Pit Class B | ✓ (4)(5) |
| Quarry Class A | ✓ (4)(5) |
| Quarry Class B | ✓ (4)(5) |
| Recreation, non-intensive | ✓ |

(For non-operative clarity to the above, the new rows will not include checkmarks identifying those as permitted in the other zones, and uses not mentioned in this table would be added as permitted uses in the MX Zone.)

9. The following new footnotes are added to Table 8.1 as follows:
- (4) Only uses legally existing as of October 7, 2024. If the use is not legally existing as of October 7, 2024, the use is permitted only if included as part of a licence approved under the Aggregate Resources Act.
- (5) Associated facilities to a mineral aggregate operation used in extraction, transport, beneficiation, processing or recycling of mineral aggregate resources and derived products such as asphalt and concrete, or the production of secondary related products are additionally permitted only if included as part of a licence approved under the Aggregate Resources Act.
